PC PORTABLE

DESIGN BY PIERRE CHARPIN, 2018

Pierre Charpin's PC Portable Lamp is a refined and portable freestanding lamp for indoor and outdoor use. Constructed in robust plastic and featuring a matte scratch- and water- resistant finish, its battery-powered design gives the freedom and flexibility to move it anywhere. The light source is hidden from view by a polycarbonate diffuser, available with both downlight and ambient output options, depending on the desired use. The PC Portable Lamps are available in several mono-colour designs or a selection of playful colour combinations, making them ideal for table lighting in numerous domestic environments, as well as at cafés, restaurants and other public areas.

HIGHLIGHTS

- Part of a progressive and technologically advanced lighting collection.
- A compact, portable and robust LED-based lamp that can be used freestanding in a number of different environments and applications.
- CE and ETL approved for both EU and US markets.
- Replaceable LED light source included with an estimated life span of 25.000 hours of use.
- Integrated touch step dimmer switch on the base of the lamp.
- 10 hours of autonomous usage.
- Qualified for contract use.
- Suitable for both indoor and outdoor environments.

DIMENSIONS

WIDTH / 14 CM / 5.5"

DEPTH / 14 CM / 5.5"

HEIGHT / 22 CM / 8.7"
